Zinc-carbon batteries

The heart of the world has to be a battery.

Our world is now inconceivable without mobile energy. It powers machines and their controllers. It ensures the functionality of tools and makes them powerful. It saves lives in ambulances and hospitals. Without mobile energy there would be no modern communication. Because mobile energy keeps the economy moving, it is itself an important economic factor: High performance, reliability and durability are the decisive parameters for suitability for everyday use and cost-effectiveness. We do everything that we can so that you can be safe. Premium batteries from Axcom are the first choice for all of your applications.

30 %

more power

30 %

lower costs

100 %

quality

When it comes to the quality of our batteries, we know no compromises. We only use high-quality, tested cells that are individually measured to ensure their performance and service life. The housings are not made of recycled plastic, but of high-quality ABS/PC. Gold-plated contacts prevent corrosion and ensure that power is output with no loss. It is not without reason that Axcom batteries far exceed the reliability and longevity of the device manufacturers' own batteries.

A lower purchase price plus a longer service life gives Axcom performance.

In terms of overall performance over the entire service life, with Axcom rechargeable batteries you benefit from up to 50% lower overall costs compared to standard rechargeable batteries. An additional bonus is that good feeling of being able to rely on the performance of our products at all times.

Tested Axcom Quality

a

GUARANTEED RELIABILITY

Axcom vouches for the quality of its batteries with comprehensive warranty services.

Axcom's cell exchange service: Use premium products and save up to 60%.

Outstanding quality has top priority in everything that we do.
Of course, this also applies to our service for you: battery cell replacement.

And this is how it works:

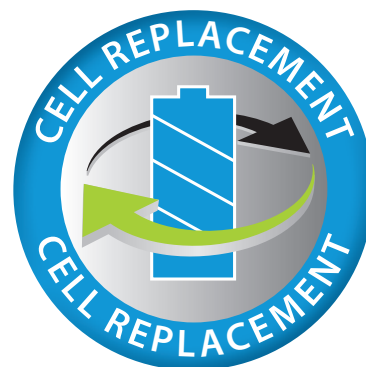

We exchange used cells for new, high-quality industrial cells.
Only the housing and the fuses are retained.

The result:

You will receive an absolutely new battery with up to 12 months warranty on the built-in cell
and declaration of conformity with the German medical products act, MPG.

Your benefits at a glance:

- :: 100 % performance at up to 60 % less cost compared to an original battery
- :: Exclusive use of quality cells and extensive quality controls
- :: Certified to ISO 9001:2015
- :: Simple processing: Send in original battery - we will take care of everything else
- :: Avoid waste and conserve resources

Exchange cells in-house?

You can find our extensive range of lead batteries in our online shop under www.axcom.de.

New from your quality manufacturer Axcom!

100 % compatible batteries with a significant price advantage

THE BASIS OF OUR SUCCESS IS THE SUCCESS OF OUR CUSTOMERS.

WE ARE THE BATTERY PEOPLE: WE SUPPLY ENERGY WHEREVER PEOPLE NEED IT.

Our Products

Batteries for medical equipment, accessories for medical equipment, batteries for two-way radios and pagers, accessories for two-way radios, camera batteries, spotlight batteries, control system batteries, batteries for power tools, batteries for scanners, scanner accessories, batteries for mobile printers, batteries for radar measuring equipment, lead batteries, battery chargers, single cells, hearing aid batteries, primary batteries, button cells, custom battery solutions, cell replacement

Our Services

- :: Structured organization of product management, purchasing, technology, quality assurance, sales & distribution, marketing, and logistics – always with the aim of providing our customers with the best products at the right moment in time.
- :: Thanks to a wide-ranging presence on the market, the members of our dedicated sales team always have the latest information and are always pleased to share their knowledge and expertise with our customers.
- :: Our engineers and technologists are always ahead of the latest developments in the battery-technology segment. This ensures that our products are technically always one step ahead.
- :: Thanks to the direct telephone or face-to-face dialog between our technical staff and our customers, we know our customers' specific requirements and can offer them optimum solutions.
- :: We offer our customers support for their own marketing activities with a range of marketing media and sales documentation.

Quotations Service

- :: We take your specific needs into account and make you a precisely tailored offer.

Efficient Delivery

- :: Our extensive warehouse inventory enables us to deliver the majority of our products to customers across Germany within 24 hours of ordering. Please contact us for individual delivery times for other European countries and the rest of the world.

At Axcom, We Have the Highest-Quality Accessories for Your Operational Equipment!
